

POLIFLEX H

Characteristics	
Thermal class (temperature index)	H (180 °C)
Chemical composition	
Base resins	Polyester-Amide-Imide
Overcoat	-
Bonding coat	-
Reference to the International Standards	IEC 60317-8 NEMA MW 74
UL – approval	File E 60641
Significant properties	<ul style="list-style-type: none">• Special winding wire with improved thermal, mechanical and chemical properties for the construction of motors and transformers
